Senator Jones Introduced the McKinley Bill Classification

As a Substitute for the Pending Metal Schedule.

IT CAUSED A STIR.

Democrats Made Subjects for Taunts by Republicans.

WASHINGTON, May 23.—The senate disposed of seven paragraphs of the metal schedule yesterday after eight hours of debate. The debate was marked by quite a number of interesting clashes between the Republicans and Democrats. The sensation of the day was caused by the unexpected presentation by Mr. Jones of an amendment substituting the McKinley bill classification, and specific rates on round iron, coils, blooms and charcoal iron, somewhat higher than those already proposed. The amendment was a surprise to some senators on both sides, although evidently anticipated by Mr. Quay and a few other of his colleagues. Mr. Hale tried to use it as a text for taunting the Democrats, and Mr. Teller read him a very plain lecture on the duty of the Republicans to accept such increase as the Democrats were willing to grant without continually chiding their adversaries with inconsistency. When the vote was taken six Democrats and three Populists refused to support the Jones substitute, namely: Allen, Berry, Blackburn, Jarvis, Kyle, Mills, Pascoe and Peffer. The rates fixed yesterday were as follows:

Round iron, 40 cents per ton.
Pig iron, scrap iron, etc., \$4 per ton.
Round iron in coils, eight-tenths of a cent per pound.
Slabs, blooms, less finished than bars, five-eighths of a cent per pound.
Charcoal bloom, \$13 per ton.
Beams, girders and other structural iron or steel, six-tenths of a cent per pound.

Boiler plate, from five-tenths to 25 per cent ad valorem.
Forging of iron or steel, 1 1/2 cents.
Hoop or band iron or steel (cotton ties), 30 per cent ad valorem.
Just before the tariff bill was taken up, Mr. Walsh, the new senator from Georgia, arose to a personal explanation in connection with a newspaper paragraph from St. Paul stating that the Brotherhood of Locomotive Engineers had adopted resolutions condemning him for introducing a bill making the retarding of the United States mail punishable by imprisonment for twenty years. Mr. Walsh explained that the bill aimed at heavier penalties for train robbers; they had construed it as an attempt to punish trainmen who should tie up a train in a strike.

Mr. Walsh said he had served his apprenticeship at the printers' trade, and had never known a day or an hour when he did not sympathize with labor, but he also recognized the fact that capital had rights as well as labor. Labor organizations had a perfect right to direct their members to discontinue work if by so doing they believed they could accomplish their purpose, but they had no right to interfere with other laborers who sought to go to work. They had the right to work or not to work; their rights extended no further. This was a land of liberty; it was also a land of law and order. As long as labor sought a redress of its grievances, and under the forms of law sought to work out its problem in a legal way, he was a laborer to that extent and no further. The bill he had introduced was loosely worded and possibly liable to the construction the locomotive engineers had placed upon it, but it was not intended either directly or indirectly to be the subject of such construction. In conclusion, Mr. Walsh reintroduced his bill in a modified form so as to leave no doubt as to its purpose.

The senate, on motion of Mr. Harris, went into executive session and shortly afterward adjourned.

CIVIL SERVICE REFORM KILLED.

The House Knocks Out the Appropriation for the Commission.
WASHINGTON, May 23.—The question of civil service reform was given full sway in the house, the occasion being the amendment to strike out the paragraph in the legislative appropriation bill providing for the civil service commission. It gave opportunity for a few stirring and not a few amusing speeches. The amendment was adopted by a vote of 109 to 71, amid great democratic applause and republican cries of "spoils." No other amendments of any other importance were made to the bill, the only ones adopted being to correct the totals of a few amendments to which amendments were made Monday.

Mr. Pendleton, Democrat, of West Virginia claimed the civil service commission was established for the purpose of keeping Republicans in office, while the Republicans defended the present administration of the civil service law. Several Democrats opposed the amendment, virtually abolishing the commission, but it was adopted by nearly a strict party vote. Among the Democrats who voted with the Republicans in favor of the civil service reform were: Wilson, Tracey, Hendrix, Dockery, Warner, Springer, Sayers, Crane, Martin, Kilgore, Livingston, De Forest and Everett. The vote on division was 90 to 61. Order of no quorum and demands for tellers being 109 to 71. Mr. Dingley gave notice that he would demand the yeas and nays in the house. It being then after 5 o'clock, the committee rose and the house at 5:04 p. m. adjourned.

James Widdup, an old settler, was shot and killed on Burn Fork, Southern Utah county, Wyoming, by William Blodgett in a dispute over water rights. His son, Thomas Widdup, was also shot, but not fatally.

WHERE IS BUTTZ.

The Alleged Briber of Senators Can't Be Found—Otherwise Engaged.

WASHINGTON, May 23.—C. W. Buttz, who was very anxious to be represented before the senate bribery investigation committee, was not on hand when the committee met yesterday. Instead he sent his attorney to explain he was otherwise engaged and asked to be excused from further attendance at present.

On being questioned by the committee as to Mr. Buttz's reason for his conduct Attorney McGowan stated his client was engaged in making search for a witness who could corroborate his statements and throw light upon the question at issue. The explanation was far from satisfactory and Mr. McGowan was informed Buttz was the man wanted and not a substitute. Accordingly they called the sergeant-at-arms to their assistance and directed that a subpoena be issued for Buttz.

The sergeant-at-arms reported to the committee at 12 o'clock; he had failed to find Buttz. He, however, had ascertained Buttz had left the city on an early morning train, with the purpose and expectation of returning by 3 o'clock, at which hour he had said he would again appear before the committee.

Major Buttz did not meet the expectations of the committee by putting in an appearance during the afternoon.

MERCHANTS ACTIVE.

They Are Seeking to Increase Their Trade in the United States.

WASHINGTON, May 23.—The United States commercial agent in Bamberg, Germany, Louis Stern, says in a report to the state department that since the world's fair the German merchants, encouraged by their government, are making special efforts to extend their trade. To this end, through the German consuls in the United States, agencies have been established in all important centers where persons can obtain advice and information relative to the cost, freight and tariff charges upon German products and thus importation at first hand is made practicable and profitable.

Mr. Stern believes that American manufacturers could imitate this plan with advantage.

BOATNER ENDORSED.

House Committee Disapproves of Judge Jenkins' Course.

WASHINGTON, May 23.—The house committee on the judiciary has endorsed the report of the Boatner subcommittee which investigated the matter of the injunction by Judge Jenkins of the circuit court of the Eastern district of Wisconsin against the employees of the Northern Pacific railroad. A resolution and two bills will be reported to the house. The resolution will set forth, the house disapproves of the action of Judge Jenkins, and holds that he exceeded his powers in enjoining the strikers from striking. The two bills to be reported will be drawn to carry into effect the subcommittee's recommendation regarding compulsory labor.

Will Probably Resume.

WASHINGTON, May 23.—The comptroller has received a request from a former president of the state National bank of Wichita, which recently closed its doors, asking that no receiver be appointed and an opportunity be given the bank to resume business. The request will be complied with.

WILL TAKE CONTROL.

The Presbyterian Assembly Claims Approving Power

In the Appointment of Professors in Seminaries.

STRONG PROTEST MADE

A Committee Appointed to Placate the Seminaries.

SARATOGA, N. Y., May 23.—The question of theological seminary control, so far as the general assembly of the Presbyterian church is concerned, is settled. By a vote of almost four to one the report of the majority of the committee that considered the matter was adopted yesterday. The report provides for gaining the power and right to appoint the professors and directors, and asks the directors of the seminaries to declare a trust in favor of the Presbyterian church which the general assembly may enforce in the civil courts. At the same time a committee is provided which shall confer and advise with the seminaries, and seek to gain their consent to the proposed plan. The report was put through the assembly in spite of urgent requests for delay, and in the face of protests from those who desired that the church and the institutions affected might be consulted.

PAROCHIAL SCHOOLS.

A Campaign Being Waged Against Them on Indian Appropriations.

WASHINGTON, May 23.—A campaign is being waged at the door of the house by a society called the National League for the Protection of American Industries, against those items in the Indian appropriation bill providing for the support of parochial schools. The society is largely an ecclesiastical organization. The Rev. W. H. Parsons is its president, the Hon. William Strong, a retired justice of the supreme court, vice president, and on the board of managers are Wheeler H. Peckham, who was nominated by President Cleveland for the supreme court; Dorman B. Eaton and Henry E. Howland.

The opponents of the appropriations for schools under church management claim that they have a large number of members of the house pledged to fight the grants when the bill is brought up. They represent that during the past eight years a total of \$2,364,416 has been given to the Roman Catholic schools, out of \$3,767,951 appropriated, and that the proportion given to the Catholic schools is steadily increasing since the Congregational, Methodist, Presbyterian and Episcopal churches have withdrawn their applications for funds.

The whole amount asked for this year is said to be \$400,000, to be distributed among forty-five Roman Catholic schools. The particular items in the bill which congressmen are asked to oppose are for the following schools: St. Boniface, Banning, Cal., \$12,500; Holy Family, Blackfoot, Mont., \$12,500; St. John's, Collegeville, Minn., \$10,000; St. Benedict's, St. Ignace, Ga., \$1,000; St. Paul, Clontarf, \$10,000; St. Ignatius, Jocko, Cal., \$45,000; St. Joseph's, Rensselaer, Ind., \$8,330; Kate Drexel, Umatilla, Ore., \$6,000.

CROPS IN MISSOURI.

Damage by the Frosts Slight in the Central Part of the State.

ST. LOUIS, Mo., May 23.—The current weekly bulletin of the Missouri weather service and the state board of agriculture, indicates that in some of the northern counties the recent frosts did considerable damage to corn, garden truck, grapes and other tender vegetation. In the central and southern counties the damage was slight. In many of the northern and western counties, crops, and especially grass and small grains, are greatly in need of rain, but in other sections the conditions have been very favorable, except during the last two days of the week, when the weather was much too cold. Chinch bugs are reported in many counties.

Six Florida Women.

DENVER, Col., May 23.—Black Ashford Taylor, grandson of President Zachary Taylor, who came to Denver early in March, assuming the name of Patrick McGowan, on account of having shot a man at Louisville, Ky., in a quarrel over a woman, has fled from this city leaving behind him six women whom it is said he had promised to marry. His flight was hastened by an accidental meeting and exchange of confidences between two of the women. Each of the six women charge Taylor with having obtained money and jewelry from her after promising to marry her.

NO WOMEN PREACHERS.

Cumberland Presbyterians Decide Against Them by a Very Small Majority.

EUGENE, Ore., May 23.—Yesterday was the most exciting day of the Cumberland Presbyterian assembly. The report of the judicial committee, which made both majority and minority reports, was taken up. The question at issue was whether a woman shall be ordained to preach. The particular case in point is that of Mrs. Woolery.

The minority report favoring ordination was lost—85 to 81. Then the majority report was carried. A motion was made for a reconsideration, but the motion was tabled and the matter rests for the present at least. It is probable the matter will finally be turned to the presbytery, and after their action be brought before the general assembly another year.

SANDOW WRESTLES A LION.

The Lion Wouldn't Do Anything and Sandow Won Easily.

SAN FRANCISCO, May 23.—Over 8,000 people assembled at Central park last night to witness a wrestling match between Sandow, "the perfect man" and Col. Daniel E. Boone's tame lion "Commodore." Commodore was muzzled, his paws being encased in big boxing gloves and he was so handicapped that free action was almost impossible.

When Sandow entered the iron cage the lion was lying on all fours and no amount of teasing could get him to stand up or lose his temper. Sandow lifted him from the ground and swung him around and around but it was of no avail. After ten minutes of this farce, the match was given to Sandow.

MISSOURI TAXATION.

Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.
